

## Equipment/Resources:

- Writing utensils, 6 different colored pencils
- Copies of activities
- Buckets or other containers for water
- Measuring cups
- Water
- 6 different colors of yarn (same colors as pencils)
- Ruler, yardstick and scissors

## Horse Skills:

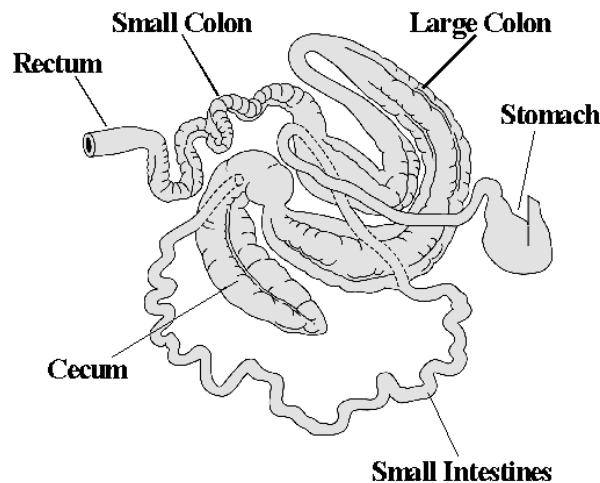

1. Discover key words for digestive anatomy.
2. Identify digestive tract organs and their location.
3. Determine the capacity and length for parts of the digestive tract.

## Life Skills:

1. Follow detailed instructions to create visuals.
2. Improve problem solving and decision-making skills.
3. Learn to work as a team.

## Main Activity - A BELLY FULL

Designate what color each part of the digestive tract is to be colored. Refer to the text for digestive tract lengths and volume capabilities.

## Riding Further Activity - Digestive Visual

Have youth work together as a group or divide them into smaller groups for this activity.
